CUOMO

<http://andrewcuomo.com/>

Created the tax cap.
Supports the super-majority to pierce the cap.
Supports district consolidations.
Supports Tax Freezes on school budgets.

Tax Cap

TEACHOUT

<http://www.teachoutwu.com/>

Eliminate the 60% super-majority.
Believes in one person, one vote in school budget elections.
Eliminate the undemocratic provisions of the cap on local school budgets.

High-Stakes Testing

Created a culture of test-and-punish, abandoning actual teaching and real learning.

Stop high stakes testing.
Reevaluate ALL high-stakes tests with FULL input from educators and parents.

Charter Schools

Governor Cuomo has promoted a private takeover of public education policy by opening state coffers up to charter schools, which serve only three percent of New York's students.

We should repeal provisions, enacted in 2014, that hijack control of decision-making about charter school co-locations and mandate that New York City pay for charter school rent.

Vouchers

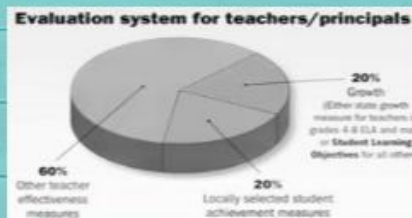

Vouchers for private school are not the panacea that some people believe, and they threaten to undermine our existing public schools.

We should protect our public schools from privatization schemes, including the diversion of state funds to private schools through vouchers or back-door tax credits.

APPR

Created the APPR so every New York public school district now has an APPR teacher evaluation system which changes the educational focus to performance-based testing in lieu of teaching and learning.

Believes that all tests that are part of the teacher evaluation system should be halted.
